was some bitter opposition, but it was too weak to show itself on voting. Having passed the Committee without division, there can be no doubt of its success in the House, as the members are the same.

The Boston papers have not yet heard the news, though it was in their city *four days ago.*

☞ We had quite a snow storm yesterday—which covered the earth with snow several inches deep.

The Boston folks, or rather a few of their big-bugs, have sent a memorial to the Parliament of Montreal that they would prefer that the terminus of the Montreal Rail Road should be at Boston rather than Portland. They like the Concord route the best; and think the Canadians out to see as they do. *Indeed!*

We could get thousands of signatures in this city to a memorial *more* strongly in favor of the Portland terminus, than the Boston memorial is in favor of Boston. In all such matters "some things can be done as well as others." But in this case, the veil is thin, and easily seen through.

Boston is a great city, but its people were always "full of notions."

Senator Bates. Letters were received in Boston on Thursday, stating that Mr. Bates continued seriously ill, and that his disorder (a lung fever) was extremely violent. These accounts are corroborated by letters from Washington, in New York papers. The Herald's correspondent says—"I learn that he has relapsed, and that his case is very critical, indeed—so much so, that he is not expected to live more than twenty-four hours."

Unfortunate. Mr W. B. Patch, of Bangor, had his pocket cut, on board the steamer Portland, on Friday morning, on his passage from B. to this city,—and a pocket book abstracted containing about \$2600. He offers \$500 reward for the thief and money.

It is a curious fact, that since the annexation of Texas, even the *fancy stocks* have risen in New York! Whigism—*What do you think of that?*

Rockwell, at the Boston circus, advertised a bullfight for Monday evening, and some of the audience were quite outrageous because the part of the bull was played by a horse!

Anecdote. At an 'upper end' Miller meeting, in this city, the other evening, after a pause of some length—Brother M. stated that he had a special impression that he must kiss sister N. Her husband being present, thought such an impression must come from the Devil—as no good impression would expose his wife to be kissed by such an "ugly looking mug" as that brother wore. So he took her away un-kissed, and will probably keep her away. MASON.

choice of a Medical Superintendent, to take place of Dr Ray, on the 19th instant.' The Board consists of Hon. Reuel Williams, Ex-Governor Kent, John H. Hartwell, Esq. and Hon. C. Holland.

Narrow Dodging. The postage, under the new act, between Philadelphia and Boston will be ten cents. If the distance was *two miles* shorter, the postage would be only five cents.

AGAIN, The Female Samaritan Society of this city, again acknowledge the donation of \$25 from a benevolent individual.

Robbery of a Grave-Yard. There is much excitement in Frankfort and Monroe, growing out of the robbery of a grave-yard in the latter place of the corpse of a Mrs. Brooks, which has been found in the back office occupied by Dr. Tewksbury of Frankfort, who has been arrested with his student, Tibbetts. The husband of Mrs. Brooks was deeply affected at the sight of the corpse of his wife, upon which the work of dissection had been commenced. After a while he became frantic, and greatly enraged. Indeed all Frankfort and Monroe are in a state of the most intense excitement, at the developement of this outrageous and sacrilegious desecration of the grave. The parties arrested were to have a justice trial this morning, in Monroe.—[Bangor Mercury.]

The Signal says—the legal investigation of the matter, as alluded to above, resulted in the acquittal of Dr. Townsbury of Frankfort. His student, Tibbets, was bound over in the sum of five hundred dollars.

Fatal Occurrence. There seems to be no warning of fire arms that can prove effectual. On Sabbath morning, the 2d March, Mr Evard, silversmith at Pittsylvania court house, Virginia, stepped in to the back room of the bar of the "Kings Sun," and picked up a musket loaded with turkey shot, and pointed it at the bar keeper, Francis Compton, son of John Compton, of said county, aged about eighteen years, a boy of indomitable, prudent and enterprising habits, who begged him to desist from such idle acts, when at that moment the musket discharged, sending the entire contents into the body just at the point of the breast bone, some of the shot passing through the body. The young man staggered into the front room and dropped upon the identical spot upon which little Sneed fell, who was similarly killed by Roberts, two years ago. Evard has been committed to jail to await his trial for the killing. [Lynchburg Virginian.]

Another Fire in Norfolk, Virginia. We learn from the Beacon, that a fire broke out at 1-2 past 8 o'clock on Thursday night last in a stable on F Church street, next to the Methodist Protestant Church. The flames soon spread with fearful rapidity to the Church, (formerly the old Theatre) which was entirely destroyed. The adjoining tenement of Mr Thomas E. Dixon, was in imminent danger and saved with great difficulty. The wind being strong from about E. S. E., the Masonic Lodge, Baptist Church, and several houses on Church street, were on fire from the sparks, but were put out without much damage. The fire however, was gotten under between 11 and 12 o'clock. It had not been ascertained whether the Church had been insured.
